1987 ARTICLE INDEX

Articles published in PRODUCTION, January through December, 1987, classified by subject.

Article	Month/Page No.
Adaptive Control	
Sensing a Brighter Future for Welding	April, 36
Aerospace	
Composites Reaching New Heights in Aerospace	August, 55
Grumman Gets the Competitive Edge	October, 62
Gulfstream Aerospace	July, 62
Technology Goes Soaring at General Dynamics' Factory of the Future	May, 58
Artificial Intelligence (AI)	
A Status Report: Artificial Intelligence	April, 46
Machine Controls: Getter Better—Not Necessarily Bigger	May, 38
Assembly	
Europe Looks At Flexible Welding Systems	June, 50
Flexible Car Body Assembly	November, 68
GM Installs Automatic Assembly Systems	February, 37
Robotics: Appropriate Technology Coming of Age	October, 40
Automatic Guided Vehicles (AGVs)	
Automated Guided Vehicle Systems	February, 40
Making Moves for Improved Production Efficiencies	October, 48
Automotive	
Automotive Supplier Relationships	November, 66
Cadillac: On Its Own—and Aggressive	October, 74
Flexible Car Body Assembly	November, 68
GM Installs Automatic Assembly Systems	February, 37
Bar Coding	
Keeping Track of Parts	August, 64
Ceramics	
Managing the Materials Matrix	August, 42
Composites	
Composites Reaching New Heights in Aerospace	August, 55
Managing the Materials Matrix	August, 42

(continued on page 94)

MEETINGS

February

2-4. FOCUS '88, sponsored by The Composites Institute of the Society of the Plastics Industry, Inc., Cincinnati Convention Center, Cincinnati, OH. Information: Gary Grates or Betsy Van Wagner, 212-481-4488.

16-18. Workholding Expo '88, sponsored by Huron Machine Products, Delta Court of Flags Resort Hotel, Orlando, FL. Information: Kris Weick, 800-327-8186.

16-18. Advanced Machining Technology II (AMT II), sponsored by SME, Phoenix, AZ. Information: Lawrence La Ferte, 313-271-1500, ext. 356.

28-29. "The Global Business Outlook for Injection Molding of Ceramics, Cermets and P/M Parts," sponsored by Gorham Advanced Materials Institute, San Diego, CA. Information: Carolyn Davidson, 207-892-3941.

March

1-3. "Machine Monitoring Sensors for Untended Manufacturing, sponsored by the Computer and Automated Systems Association of the Society of Manufacturing Engineers (CASA/SME), Cincinnati Marriott Hotel, Cincinnati, OH. For details, call Dianne Leverton, 313-271-1500.

8. "Computer Integrated Manufacturing: An Executive Briefing," sponsored by SME, SME Headquarters, Dearborn, MI. Information: Andrea Brink, 313-271-1500, ext. 597.

15. "Adaptive Control of Welding Research and Applications," sponsored by the Northeast Tennessee Section of the American Welding Society, Pollard Auditorium of the Oak Ridge Association Universities, Oak Ridge, TN. Information: Gene Goodwin 615-574-4809 or Tom Mustaleski 615-574-1820.

15-16. "Welding Technology Update—1988," sponsored by the Center for Continuing Engineering Education of the University of Wisconsin-Milwaukee, Milwaukee, WI. Information: Roger W. Hirons, 414-227-3105.

15-17. Logistex '88 Forum, sponsored by the Institute of Industrial Engineers, Baltimore Convention Center, Baltimore, MD. Information: Stephanie Starr, 404-449-0460.

21-24. WESTEC, sponsored by SME and ASM, Los Angeles Convention Center, Los Angeles, CA. Call James Forlenza, 313-271-1500, ext. 298.

ARTICLE INDEX

Article	Month/Page No.
Computer Integrated Manufacturing (CIM)	
Today, It Takes More To Be Competitive	December, 36
Controls	
Adaptive Control Pursues Perfection	April, 52
A Status Report: Artificial Intelligence	April, 46
Getting in Control of Cutting Tools—Before You Cut Your Profits	June, 40
Machine Controls: Getting Better—Not Necessarily Bigger	May, 38
Rule-based Breakthrough for Transfer Line Control	May, 34
Systems Integration Beyond Metalworking	May, 66
Coordinate Measuring Machines	
CMMs Move To Production Floor	January, 56
European Quality in Production	December, 50
Zeroing In On Accuracy—Robotically	July, 60
Cutting Fluids	
Cutting Fluids: Complex but Critical	July, 42
Cutting Tools	
Cutting Tool Economics—Don't Succumb to a Bag of Donuts	November, 52
Getting in Control of Cutting Tools—Before You Cut Your Profits	June, 40
Equipment	
Manufacturing Planbook Product Guide	March, 57
Finances/Investment	
Capital Spending Outlook: 1987	January, 53
Capital Spending: Outlooks & Trends	March, 49
Justifying New Technologies	July, 50
World Outlook 1987	January, 29
Flexible Manufacturing	
Automation Shifts Ross Gear into High	September, 56
Being the Competition	November, 70
Cells and Systems: Justifying the Investment	February, 30
Cutting Tool Economics—Don't Succumb to a Bag of Donuts	November, 52
Developing a Manufacturing Strategy for the Smaller Company, by Chad C. Frost, Robert H. McIntyre and Randal W. Nauta	March, 40
European Quality in Production	December, 50
Factory of the Future: GM Invests to Learn	May, 52
Factory of the Future: Visions Taking Shape	May, 45
Getting A Bigger Slice of the Pie	September, 70
Gulfstream Aerospace	July, 62
Mazak Extends Automation	August, 76
Simulate, Integrate and Innovate	November, 40
Systems Integration Beyond Metalworking	May, 66
Technology Goes Soaring at General Dynamics' Factory of the Future	May, 58
The Laser Meets the Factory Floor	November, 60
World Outlook 1987	January, 29
Gears	
Hard Finishing Made Easy for Gear Manufacture	September, 52
Grinding	
Automation Shifts Ross Gear into High	September, 56
Hard Finishing Made Easy for Gear Manufacture	September, 52
The Fastest Slow Machining Operation	September, 40
Group Technology	
Group Technology: Its Time Is Now	December, 66
Hard Finishing	
Hard Finishing Made Easy for Gear Manufacture	September, 52
Inspection and Quality Control	
CMMs Move To Production Floor	January, 56
European Quality in Production	December, 50
Now Hear This!	December, 62
Robotics: Appropriate Technology Coming of Age	October, 40
Zeroing in On Accuracy—Robotically	July, 60
Just-In-Time	
Just-In-Time: The Home-Grown Technique Comes Home	August, 60
Lasers	
The Laser Meets the Factory Floor	November, 60
The Laser: Where Flexibility Ultimately Means Economy	June, 56
Machining	
Adaptive Control Pursues Perfection	April, 52
Cutting Fluids: Complex but Critical	July, 42

ARTICLE INDEX

Article	Month/Page No.
Factory of the Future: GM Invests to Learn	May, 52
Five Spindles Are Better Than Two	September, 74
Rule-based Breakthrough for Transfer Line Control	May, 34
The Fastest Slow Machining Operation	September, 40
The Laser: Where Flexibility Ultimately Means Economy	June, 56
Management	
Automotive Supplier Relationships	November, 66
Being the Competition	November, 70
Capital Spending Outlook: 1987	January, 53
Capital Spending: Outlooks & Trends	March, 49
Cells and Systems: Justifying the Investment	February, 30
Developing a Manufacturing Strategy for the Smaller Company, by Chad C. Frost, Robert H. McIntyre and Randal W.Nauta	March, 40
End-of-Month Crunch, by R. D. Garwood	February, 48
Getting A Bigger Slice of the Pie	September, 70
Gulfstream Aerospace	July, 62
IIT Center: Where Innovation Is a Way of Life	August, 70
Justifying New Technologies	July, 50
Just-In-Time: The Home-Grown Technique Comes Home	August, 60
Planning for Manufacturing in Large Organizations	March, 34
Playing for High Stakes in High Technology	October, 54
Put the Robot in the Lobby	April, 68
Simulate, Integrate and Innovate	November, 40
Simultaneous Engineering—Management's New Competitiveness Tool	July, 36
SRI International: Where Innovation Is a Way of Life	December, 55
Today, It Takes More To Be Competitive	December, 36
World Outlook 1987	January, 29
Material Handling	
Automated Guided Vehicle Systems	February, 40
Making Moves for Improved Production Efficiencies	October, 48
Materials	
Composites Reaching New Heights in Aerospace	August, 55
Managing the Materials Matrix	August, 42
Part Identification	
Keeping Track of Parts	August, 64
Plastics	
Managing the Materials Matrix	August, 42
Pressworking/Forming	
Grumman Gets the Competitive Edge	October, 62
The Press Room Goes High-Tech	December, 44
Research	
Battelle: Where Innovation Is a Way of Life	June, 66
IIT Center: Where Innovation Is a Way of Life	August, 70
SRI International: Where Innovation Is a Way of Life	December, 54
The Industrial Technology Institute	April, 60
Robotics	
Put the Robot in the Lobby	April, 68
Robotics: Appropriate Technology Coming of Age	October, 40
Sensing a Brighter Future for Welding	April, 36
Zeroing in on Accuracy—Robotically	July, 60
Sensors	
Getting in Control of Cutting Tools—Before You Cut Your Profits	June, 40
Sensing a Brighter Future for Welding	April, 36
Sensing Systems for the Real-World Factory	September, 62
Simultaneous Engineering	
Cadillac: On Its Own—and Aggressive	October, 74
Simultaneous Engineering—Management's New Competitiveness Tool	July, 36
Superconductors	
Managing the Materials Matrix	August, 42
Turning	
Factory of the Future: GM Invests to Learn	May, 52
Welding	
Europe Looks At Flexible Welding Systems	June, 50
Sensing a Brighter Future for Welding	April, 36
The Laser: Where Flexibility Ultimately Means Economy	June, 56
